

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Cell phone use is not only annoying, but its just plain rude and intrusive! Who wants to sit next to some gabby person who is so impressed with him/herself that the level of noise is far higher than they would ever talk on their home or office phone. STOP this foolishness NOW. Cell phone use is as irritating as the "smoking section" used to be before people smartened up.

I DO NOT want to travel and sit next to some fool who thinks nothing of a person's right to quiet. Its bad enough that these fools sit in restaurants and take phone calls or drive in heavy traffic with a phone to their ear.

LET'S STOP THE INSANITY NOW BEFORE IT GETS STARTED.

Please leave the current rules in effect.

Sincerely,

Nancy Gresham
